For Immediate Release

American Limousine Launches "Premiere Value Service" Focusing On Corporate Customers.

Top Los Angeles Limousine Company offers 10% Discount to companies establishing corporate accounts for the new service. Details can be found at www.americanlimos.org.

Although New Year's Eve saw American Limousine busier than ever, the company announced today that it is focusing on delivering corporate customers with the best limousine service in Los Angeles. "This was our busiest New Year's Eve ever" Says Matthew Newman, President of American Limousine. "We are well known for our superior quality limousines and chauffeurs, and we had more requests than we could handle, even though we have one of the largest and most diverse fleets in LA. With our new Premier Value Service we are recommitting to offering the very best service and our extensive fleet to Los Angeles area corporations".

"The company is already one of the top limousine companies in Los Angeles providing service for weddings, sightseeing tours, proms, airports, concerts, and events" says Francky Caruso, Operations Director. "But huge growth is coming from the corporate area, where American Limousine is unparalleled". Current and former clients include major entertainment companies such as Warner Bros., Disney, Paramount Studios, Sony, ICM, THQ and CAA, and major corporations including AT&T, GE, SBC, Bank of America, IBM, HP and Apple, and such great teams as the Los Angeles Lakers and the Los Angeles Dodgers. Popular destinations include Staples Center, Dodger Stadium, major hotels like Hilton and LAX.

"Companies want a great service at a competitive price" Mr. Newman says, "We provide the best limousines, the best service, and are committed to 100% satisfaction for our customers". This customer-centric focus is what led to the new Premiere Value Service to focus even more care and attention on corporate customers.

American Limousine is fortunate to be in a position to capitalize on the tremendous market opportunity the Los Angeles area affords to high quality limousine companies. "Since 1974, we have differentiated ourselves from our competitors by understanding our clients' transportation objectives and providing the resources necessary to help them meet those goals." Said Mr. Newman.

The company receives many compliments from customers. "Our customers are always letting me know what a great job we do for them" says Sara Davis, Manager, "I take great satisfaction in knowing that we are providing them with a great service". Being available 24 hours a day, 7 days a week, presenting a fleet of new vehicles and having courteous, well trained chauffeurs are some of the ways American Limousine provides the best service.

About American Limousine:

American Limousine is one of Los Angeles's leading limousine companies with Hummers, Escalades, Excursions, Cadillacs, Lincolns, and Navigators, and town cars, stretch and super stretch limousines serving the entire Los Angeles area and southern California.
