

## Los Angeles Limousine Service Continues To Add Exotic Limousines

Source: American Limousines

Dated: May 01, 2015

*An L.A.-based limousine service continues to add exciting and exotic new vehicles to its already broad fleet!*

LOS ANGELES -- LOS ANGELES - When it comes to riding in style, there is nothing that beats a limousine. But sometimes, simply "riding in a limousine" is not enough! After all, if part of the appeal of renting a limousine is the luxury this vehicle provides, another part - perhaps, even, an equal part - of renting a limousine is the way in which a limousine stands out on the road! But how much do limousines really stand out these days? Aren't they all, pretty much, the same?

If you ask American Limousines in Los Angeles - a limousine company that has been operating in Los Angeles since 1974, and that not only runs one of the most highly-regarded limousine services in L.A., but that also sells limousines to other companies around the country - the idea that "all limousines are pretty much the same" is one that does not hold water. In fact, American Limousines has the ability to add new, exotic limousines - ranging from BMW to Dodge to Mercedes - to their ever-growing fleet!

"Our first goal is always to provide a top-notch experience," says Robert Singleton of American Limousines. "We want to make sure we provide the highest level of luxury, and the best chauffeurs in Los Angeles. But even beyond that, we want our clients to truly feel special - to truly stand out on the road - and this is one of the reasons why we aim to make our fleet as unique and versatile as possible."

While there are plenty of limousine options to choose from in any city - and especially in Los Angeles - most people assume that all limo services, and that all limousines, are really exactly alike. With their ever-expanding fleet and their focus on the overall limousine experience, American Limousines in Los Angeles is out to prove this idea wrong!
